

Role Description

Introduction

The Fiordland Marine Guardians is an advisory group established under the Fiordland (Te Moana o Atawhenua) Marine Management Act 2005 (the Act). The Guardians vision is that the quality of Fiordland's marine environment and fisheries, including the wider fishery experience, be maintained or improved for future generations to use and enjoy. The Guardians promote and facilitate a collaborative approach to managing the Fiordland Marine Area (FMA).

Under the Act the Guardians are required to have no fewer than five members and no more than eight members, to be appointed by the Minister for the Environment. At least five members must be ordinarily resident in the Otago or Southland regions, and one member must be nominated by Te Runanga o Ngāi Tahu.

The purpose of this role description is to provide information to candidates so that they understand what the role requires and to create a benchmark against which the attributes of candidates can be assessed.

Knowledge and experience

As a group, the Fiordland Marine Guardians must have a balanced mix of knowledge and experience in relation to the FMA. Appointed members do not represent any particular organisation or group.

Knowledge and experience in the following areas is desirable:

- An understanding of Te Tiriti o Waitangi, Te Tiriti based partnerships, and tikanga Māori
- Knowledge of the Guardians' vision and philosophy and an ability to demonstrate behaviours aligned to these principles
- Demonstrated interest and enthusiasm for the role and the FMA, and the necessary time to contribute effectively to the work of the Guardians
- Relevant (recent and ongoing) experience and knowledge of coastal Fiordland
- Experience, knowledge, and perspective to complement those of the current Guardians (current Guardians are profiled at fmg.org.nz).
- Knowledge, experience and/or expertise in one or more aspects of the legislation and policy instruments relevant to managing the FMA (e.g. familiarity with the Fiordland (Te Moana o Atawhenua) Marine Management Act 2005,

fisheries, environmental and/or conservation legislation, Te Tiriti o Waitangi, regional plans etc.)

- Demonstrated ability to work collaboratively with others from diverse backgrounds
- Confidence and experience in effective communications and engagement
- A wide network of people that have an interest in the FMA
- Experience in governance and/or an understanding of what governance is and how this is applied through the Fiordland Marine Guardians model
- Demonstrated behaviours that suggest they have high personal integrity
- Experience chairing meetings or in related leadership roles.

Term of appointment

Members will be appointed for a term not exceeding four years. Terms will be staggered so that the terms of all members will not expire in the same year.

The Role

The Guardians meet 4-5 times per year with management agency representatives and also progress work in sub-committees and outside the main meetings. The work is generally flexible and ranges from 1-8 hours per week. The Guardians are currently paid \$308 per day worked, and the Chair is paid \$396 per day. The Guardians' actual and reasonable expenses incurred are also reimbursed. The Guardians focus on a wide range of risks and mitigations for the FMA, including but not limited to fisheries sustainability, biological monitoring, compliance, community engagement, resource planning and management and marine biosecurity.

Functions

Under Section 13 of the Act, the Guardians have the following functions:

- a. to provide advice and recommendations to management agencies¹ and Ministers² to achieve the purpose of the Act. This will include:
 - advice and recommendations on the effectiveness of management measures in the FMA
 - advice and recommendations on activities occurring outside the FMA if those activities impact, or are likely to impact, on the FMA
 - advice and recommendations on likely threats to the FMA.
- b. to facilitate and promote the integrated management of the FMA
- c. to obtain, share, and monitor information on the state of the FMA
- d. to assist management agencies to prepare and disseminate information about the FMA, including educational information
